CITY COUNCIL TAKES UP QUESTION OF SEWERAGE

City Engineer Stewart Goes
Over the Proposition
With Them

MASS MEETING SUGGESTED

A Sanitary Sewerage System
Can be Constructed For
Approximately \$50,000

The city council met in adjourned session last night to take up the sewerage question. All members were present and Mayor Cowing presided. After disposing of some small matters, City Engineer Stewart, with the aid of blueprints which he made in 1903 for the proposed sewerage at that time, gave the council, and all present, a fair idea of what sewerage meant to this city.

Mr. Stewart has given this question much thought and study, and has visited a number of cities where he investigated many systems, and the manner in which they were constructed.

After he had gone into detail in the matter, W. A. Allen, who was present, said that until last night he was opposed to the city putting in the sewerage, but when he learned how reasonable it could be constructed and how easily and cheaply it could be maintained, he said he now favored municipal ownership, if the system would be put in as it was explained last night. He said there was a strong feeling among the city constructing sewers at this time as many people were under the impression that it would work a hardship on them, and he made a most timely suggestion when he said he thought a public meeting of the citizens should be called, and the matter explained to them in a comprehensive manner. This should be done. It would cost little effort and would please a majority of the tax payers.

The impression held by many in this city was that sewers were going to cost property owners a large amount of money, and in many cases be a burden, and for that reason many favored granting a franchise.

But with the plan suggested last night, every square foot of property in the city accessible to the system would be taxed alike. And very few pieces of property are left off the proposed system. There is about two blocks, south of Second street and east of Perkins street which has been excluded on account of the low level in that vicinity. But a private system could easily be put in for this property. Then there are a few lots in the northwest portion of the city which would not be accessible to this system. These lots lay north of Seventh and west of Oliver street.

Several systems were suggested but everyone present agreed in sanitary sewerage, as the open ditch in the northwest part of the city improved, would serve the purpose of storm sewerage in that locality, and the Harrison street storm sewer is adequate for present needs and is logically located.

Mr. Stewart made a contour map of elevations and levels all over the city, and from this a system was adopted. The sewer would range from 18 to 7 feet in depth, but will be on an average of 8 feet deep, and would be constructed of vitrified pipe which would be from 24 inches to 10 inches in diameter. The system would take in 81 blocks or about 10 miles, and would consist of nine million square feet of sewerage. A fair estimate of the cost of everything complete would be between \$50,000 and \$55,000, or about \$6 per thousand square feet.

Property owners could not be assessed for sewerage for the amount of street frontage, as is the case with sidewalks, where one is obliged to pay according to the number of running feet, but the laws of his State provide that sewerage must be paid for according to the amount of square feet in each lot.

For example: In a lot 41½ by 61½ feet, there are about 7000 square feet, and at \$6 per thousand square feet, this would amount to about \$43. (City Engineer Stewart says that this size lot will average between \$40 and \$43.) Other lots would be assessed in a like manner, regardless of their value and location. In making the appropriate estimate, the streets and alley crossings were included. The city will not be assessed other than for the square feet it owns, light plant, fire engines, etc.

For example: In a lot 41½ by 61½ feet, there are about 7000 square feet, and at \$6 per thousand square feet, this would amount to about \$43.

openings for sewer taps. At the terminal of the Perkins street sewer, the pipe would be 10 inches in diameter; Main street, 10 inches; Morgan street, 6 inches; Sexton street, 15 inches, and Arthur street, 8 inches. Cross town pipes and feeders would be built in proportion, as in the case of Oliver street, which would be 10 inches.

The sewer will run in front of every piece of property in the city, except in the portions afore mentioned. The outlet of the sewer would be below the Big Four bridge. Here the sewer pipe would be 24 inches in diameter. If the city builds the sewer it will maintain it; the expense of same would be very small. Flushing apparatus would be installed at the terminal of each lead.

Now if a man who owns a 41½ by 160 foot lot will only be assessed about \$42, and he can pay this out under the ten-year payment plan, it would not be a hardship on anyone, but would be the greatest blessing ever bestowed on this corporation. Nearly everyone would use it, if its use was free, and they had to put it in, where, on the other hand, if owned by a private corporation, which would charge rental for taps, many people would never use it. Under this plan we would get the benefit of the first principal of sewerage—health.

When sewerage first was talked of, word was out about town to the effect that it would cost each property owner (owning average size lot) from \$150 to \$300. But the estimate cost—and there can be but little deviation in this—given out last night will make many converts for municipal ownership of sewerage.

The council will not award a contract until next spring, and in the meantime they will thoroughly investigate the sewerage question.

City Engineer Stewart was requested to make some necessary changes in the present plans and report back as soon as the changes are made.

SYLVESTER MEEK NAMED BY JUDGE

Attorneys Wanted a Trial Judge
of Experience and High
Legal Standing.

News comes from Brookville that Judge Gray, who resides in that town, has greatly displeased certain attorneys there.

Some time ago, Charles P. Fant, the tax ferret, placed a large amount of property, said by him to be assessable, against John C. Shirk and Mrs. Mary Goodwin, widow of Mr. Shirk's former partner in the Brookville Bank. Mr. Shirk protested against the assessment on the ground that it was without warrant and has brought suit to enjoin the Treasurer of Franklin county from collecting taxes on the property.

The case is one that involves many important and intricate points of law. One party to the suit took a change of venue from Judge Gray a habit that is quite prevalent, also in this county. Naturally the attorneys wanted a lawyer to serve as special judge in the case who had high legal standing and whose practice gave him the necessary experience to try such an important case.

It is the general rule for judges to allow interested attorneys to get together and agree upon a man. A young man, though one who is very bright and well up in the law, was suggested, but Judge Gray turned him down. Then it is said, without further consultation, Sylvester Meek, of Connersville, was chosen by Judge Gray to try the case.

The selection was a surprise to the Brookville lawyers, for while Mr. Meek is a good citizen and has proved himself a political prophet of power, his standing as a jurist of legal attainment is not considered high.

Captured Monkey-Faced Owl.
A monkey-faced owl, the rarest specimen of a bird ever seen in California, flew through a glass window of the Redding schoolhouse and was captured alive by the janitor, who presented it to the landlord of the Temple hotel, where it is on exhibition before many wondering gazers.

The owl is of a beautiful gray color, but its face is the characteristic feature. In place of the usual round face of the owl, this bird has the features of a monkey. The wings, too, are of unusual length.

DITCH LAW IS SURELY DOOMED

Nearly Every Member of the
Legislature Has an Ax
for the Law

WAS A BI-PARTY MEASURE

The Result of the Hardships it
Worked Was a Surprise
to Legislators

There are one hundred members in the Indiana House of Representatives and it is predicted that early on the morning of the first day of the session about twenty-five of them will introduce bills to repeal the present ditch law. There will be doubtless intense rivalry between the authors of these repealing measures and the one whose name is attached to the bill that runs the gauntlet of the Legislature will consider himself a candidate for a Carnegie hero medal. Denunciation of the ditch law is now one of the most popular performances in which a public man can engage.

The bill is a child born of the codification commission, and is purely a bi-party measure, as it was framed by three Republicans and three Democrats, and when submitted for vote, all but twelve members voted for it, and these twelve were divided as to political complexion.

The bill was introduced to cover the drainage of swamp land in the northern part of the State, and was not purely introduced as many farmers believe to work a hardship on them.

When the bill was passed everything said about it was rosy and under the condition, any fair-minded man would have taken the position that Henry E. Giffin and many others took in the matter. It was not done with "malicious aforethought," as many contend, for surely any fair-minded man will appreciate that it meant political suicide for any man to champion the measure, after it developed that it was a mistake—a sad mistake. And there is not a man that voted for it, who today would not introduce a bill to repeal it. We all make mistakes and the legislature made a mistake in putting such a law on the statute books, but their intent was good, and it will remain for a Republican legislature to repeal the bill and rectify their mistake.

Angels could do no more, and it is written, "Blessed is he who is not so muleish and thick-headed, but what he will admit he is wrong when he is wrong."

M'KEE'S STORY OF HEFFER CASE

Says He is Through with the
Woman Who Made Him
Trouble

James R. McKee, whom Mrs. Becca Heffer had arrested on a very serious charge Friday, was released yesterday when the matter was brought to a focus. He had declared for a thorough investigation of the whole matter as he wished to be vindicated. Last night he said: "That woman came here from Connersville against my will, but I kept her simply out of a spirit of charity. She was to secure a divorce from her husband in Jefferson county, after which we were to be married. She was suing for divorce on the grounds of non-support. I paid her way to Madison last week, but she arrived there one day too late, and as court had adjourned she would have to wait until January before the matter could again be taken up. Then the whole difficulty arose over the old story—a woman's jealousy. She became frantic whenever I conversed with other women, and naturally a war of words followed. After one of these 'set-tos' I told her I was through with her and everything was declared off. I left her in her room about 9 o'clock Thursday night and anything which occurred after that I do not know anything about. But the matter has been settled and I am glad it all came up now, and I mean to remain single and a hard working man as heretofore—I am through with her."

THANKSGIVING EVE INITIATION

Will be the Climax of the
Recruiting of a Large
Class

Burr Oak Camp Modern Woodmen, will fly the flag of glory and will make history for the local camp tomorrow night. For in the past few weeks they not only recruited enough candidates to capture the prize for furnishing the largest class at the district meeting in Columbus, but they have lined up fifty candidates for initiation tomorrow night.

If one would just stop to consider what an enormous amount of work is involved in raising such a large class when the order has been in existence in this city for several years, and has been adding new members to its roll all this time, they will not wonder why the Woodmen will celebrate tomorrow night with a bountiful banquet after the initiatory exercises. The newspapers and magazines throughout the State are commenting on this wonderful achievement in lodge work, and a large measure of the credit is due Special Deputy Young, of Indianapolis, a former resident of this city.

The Thanksgiving Eve initiation will not soon be forgotten.

CHASED HER WITH A RAZOR

Runs Her Out of the House De-
clares Woman in Di-
vorce Case

Josie Chapman filed suit for divorce today in the circuit court from her husband, William Chapman, alleging cruel and inhuman treatment and habitual drunkenness.

In her complaint she says that her husband often cursed her, and on numerous occasions struck and bruised her. And that on one occasion he came home drunk, secured a razor and chased her out of the house threatening to kill her.

They were married January 17, 1894 and lived together until August 1904. She now prays for a divorce and asks her maiden name Josie Arbuckle, be restored. J. T. Arduckle, attorney for plaintiff.

GREATEST RALLY DAY EVER HELD IN COUNTY

The boys and girls Rally Day at Little Flatrock Christian Church last Sunday was one of the most successful, if not the most successful rally day ever held in this county. An excellent program was arranged, and the collections amounted to over ninety dollars. Rev. F. B. Thomas was in charge of the exercises.

AN EARLY DECISION

Is Expected in the Case of "Jim" Gillespie.

Indianapolis, Nov. 27.—There is an unconfirmed rumor here that the supreme court will hand down a decision soon reversing the decision of the lower court at Rising Sun in the famous Gillespie case. The fact that the appeal has been under consideration so long without any sign of a decision probably has something to do with the rumor, as those who were connected with it here think that it would have been decided before this if the decision was to have been favorable to the state. A very complicated legal problem is involved as to whether or not "Jim" Gillespie was placed in second jeopardy. In the first trial one of the jurors was excused after the jury had been sworn to try the case. This jury disagreed, but at the second trial Gillespie was convicted and sent to prison for life for the murder of his twin sister, Mary Gillespie. His attorneys pleaded at the opening of the second trial that he could not be tried again, as he had been placed in jeopardy twice during the first hearing. Their plea was elaborated on at the argument before the supreme court. If the latter sustains Gillespie's attorneys the prisoner will be released, and he cannot be tried again on the same charge.

DAMAGE SUITS FILED TODAY

Against the I. & C. Traction
Company by Allen Daniels,
Administrator

DEMAND \$20,000 DAMAGES

Suits Grew Out of Accident in
Which Two Colored Men
Were Killed

Allen Daniels, administrator of the estates of William Pettiford, deceased, and Reuben Boatwright, deceased, filed suit for \$10,000 damages for the heirs of each man against Charles L. Henry, as receiver of the Indianapolis & Cincinnati Traction company.

The damage suits grew out of the accident which occurred several months ago, when the two colored men were instantly killed by coming in contact with a barb-wire fence charged with electricity.

In his complaint he alleges that decedents' deaths were caused by defendant's carelessness and negligence in the construction of its wires, inasmuch as it did not guard against and prevent the current from being carried into the fence, and carelessness in not repairing the injury to the lines in a reasonably length of time, after the fact of such injury had been communicated to them. He also alleges that adequate machinery was not provided at the power plant for the detection of any extraordinary or unusual leakages of current from its lines, and that a test of the lines for leakage was not made on the morning the accident occurred, prior to the starting of its cars or using of said current.

Pettiford is survived by a widow and several children. Several grown children survive Boatwright. Watson, Titsworth & Green are attorneys for the plaintiffs.

A GIANT MERGER

Indiana Traction Lines to
Be Operated by Great
Holding Company.

WORKING OUT DETAILS

Managers of Various Lines in Conference Over the Proposed Combination of Interests.

It is Believed That Incorporation Papers Will Be Filed Before January 1.

Indianapolis, Ind., Nov. 27.—Plans for the organization of a gigantic holding company, to include all of the Indiana traction lines owned by the syndicate represented in this state by Hugh J. McGowan are gradually being developed, and it is thought that incorporation papers will be filed before the first of the new year. Details of the big merger are now being worked out. Daily conferences are being held and lawyers are actively engaged in preparing voluminous documents. No official announcement of the merger has yet been made, but it is known that the syndicate men hope to complete their plan next month. They have been working on it for a year or more.

The new holding company will include eight interurban main lines and several branch lines. The main lines to be merged are those of the Indianapolis Union Traction, Indianapolis & Eastern, Indianapolis & Northwestern, Indianapolis & Western, Indianapolis & Martinsville, Indianapolis Coal Traction, Richmond Street & Interurban and Fort Wayne & Wabash Valley traction companies. These roads, with the numerous branch lines controlled by them, will make the largest or the second largest traction system in the world. The plan of organization is not known, but it is thought by some that the Indiana lines will be leased to the Indiana, Columbus & Eastern Railway Company, recently organized in Ohio to operate all the lines of that state owned by the same syndicate which owns the Indiana merger lines. The fact that the Ohio company includes "Indiana" in its name makes it appear to some that there will not be two separate holding companies, but that the Ohio company will lease the Indiana lines and then incorporate to do business in this state.

WILL TENDER HELM HIS MONEY

In Payment For Lots Condemned
by the City Last
Week

A resolution was passed in the city council last night, instructing the city clerk to issue an order for \$300 for lots No. 11 and 12 and tender same to William Helm in payment for them. The lots were recently condemned by an appraising committee appointed by the council, and Mr. Helm filed a remonstrance against the condemnation proceedings.

RICHMOND WILL CONNECT I. & C.

At Connersville When Pro-
posed Milton Line is
Completed Next Year

RICHMOND IS ELATED

Right of Way is Being Surveyed
From Connersville to Mil-
ton this Week

The city of Richmond is highly elated over the proposed traction line from Connersville to Milton. If this line is built, as now seems fairly certain, it will give the Richmond Street and Interurban line direct connection with the Indianapolis and Cincinnati electric line. Ever since the Richmond company built into Milton the matter of an extension to Connersville has been under consideration and at one time just previous to the sale of the Richmond property to the syndicate that now controls the several electric lines connected with the Indianapolis and Eastern and the Dayton and Western systems, preparations were to build to Connersville.

According to advices from Connersville a civil engineer and a corps of assistants began the survey from Connersville to Milton yesterday. The right-of-way will be purchased immediately thereafter and early next spring the actual construction will begin. The distance is less than fifteen miles. This line will form a connecting link between two systems that are operated independently of each other.

Before many years this county will be a veritable network of interurban lines.

HEALTH OFFICER INVESTIGATES

Diphtheria Epidemic in Ripley
Township—Eight Cases
Reported to Date

County health officer Dr. Frank Green was in Ripley township yesterday investigating the diphtheria epidemic there. He conferred with the local physicians who were attending the various cases and they reported that to date, there has been eight cases in Ripley township outside of Carthage, and the physicians claim that the epidemic is pretty well in hand now as all cases are quarantined, and most of them are very light attacks. However Dr. Green admonished them to take every precaution of checking the dreaded disease.

If conditions are favorable, as they are now, the city schools of Carthage will re-open next Monday morning.

NOBLE TOWNSHIP GREATEST MENACE

Will be the Subject of Rev.
F. B. Thomas' Sermon
Next Sunday

Rev. F. B. Thomas, pastor of Little Flatrock Christian church, who created a great deal of attention throughout Noble township recently when he took for his text "The Ten Plagues of Noble Township" will deliver equally as strong a sermon next Sunday night in "The Greatest Menace to Noble Township?" No doubt a large crowd will be out to hear this sermon as Rev. Thomas is a forcible speaker, and does not mince words in speaking of the facts existing in local conditions; his sermons "reach home."

Electric Wires in Mines.
The water in coal mines is usually acid, and when it comes in contact with electric lines it forms salts of copper. These salts rapidly disintegrate the copper wire. They also interfere with the working of the insulators. Hence it is necessary, whenever electric wires are used in coal mines, to keep them away from contact with water.

Contrary to expectations, Senator Platt, of New York has no intention of retiring from political life. Having disposed of his domestic tribulation he feels that he will have more time to devote to the burdens of the general government.

The suit instituted by President Roosevelt for the dissolution of the Standard Oil Co. will be heartily approved by all citizens who believe in enforcing the law against the rich and poor alike. This suit will not only restore that respect as an act of long-delayed justice, but will be a triumph for President Roosevelt, greater than has been achieved by any President since Lincoln. The American people are solidly behind the President in this great fight.

Dead men are only fit to inhabit cemeteries. If they are decently dead, dead all over, we tenderly lay them away in the sleep of the tomb; but if they are dead to all the enterprise out of the narrow plane of their own interests and yet persist in walking around, moving their dry bones, callous hearts and consciences where real business is wont to throb and pulse with vigor, they are only like the drone bees, in the way until they are stung to death and dragged outside the hive of legitimate industry. Twenty real live men are worth more to the public generally than a round full thousand of useless material that lies around like rubbish in a rising stream and is aching and foaming to turn mills and factories. Yes, live men bless and dead men curse a town.

IMPORTANT MEASURE

Legislature Will Be Asked to Establish Consumption Hospital.

Indianapolis, Ind., November 27.—One of the most important measures to be introduced at the opening of the coming session of the legislature will be for an appropriation of \$200,000 to make a fight against consumption in Indiana. Thousands of people have been interested in this crusade through the efforts of the health officers and others, and they propose to fight to the end for sufficient money to begin the work which they expect will lessen the dread disease in Indiana. It is said that Governor Hanly is in sympathy with the movement, but it is feared that the state treasury will be depleted so much by the extraordinary drain for such new institutions as the Southeastern Indiana hospital for the insane; the epileptic village; the new reform school for girls and the new institution for the deaf and dumb, that there will not be much for the anti-consumption crusade. Other legislatures have put off the anti-consumption crusade on some pretext or other—usually on the one that the state didn't have enough money to spend that way, but sentiment has changed and so many people believe that consumption is curable, or at least preventable, that they will insist that money be appropriated for the crusade.

The first annual report of the Indiana railway commission will be filed with Governor Hanly this week. It deals largely with the financial standing of the various roads in the state and in recommendations for extension of the powers of the commission. The commission would like to have its own law amended as follows: First, authorizing one member to conduct an investigation and report his findings to the commission for decision; second, limiting the railroad companies to five days in which to answer a complaint; they are now allowed twenty; third, repealing the section of the law giving railroad companies right of appeal from commission to appellate court, and substituting an amendment permitting the aggrieved party to bring an action in some court of competent jurisdiction to review or set aside the decision of the commission; fourth, compelling railroad companies to keep the commission supplied at all times with the tariff schedules.

In Memoriam.

In memory of Verle, the only child of Theodore and Ethel Newman, who died October 29th, 1906, aged 7 months. 'Tis hard to part with our loved ones, yet we have the assurance that our darling is at rest.

We wish through this notice to thank the kind friends and neighbors who so willingly lent their assistance to us in our trouble. Also Dr. Van Osdel, and the employees of Innis & Pearce's furniture factory for their help in our hour of need. THEODORE and ETHEL NEWMAN.

Bad Breath.

A well-known physician, who undoubtedly knows, declares that bad breath has broken off more matches than bad temper.

There are ardent lovers who must sometimes wish their sweethearts presented sweeter mouths to be kissed. Good teeth cannot prevent bad breath when the stomach is disordered.

The best cure for bad breath is a cleansing out of the body by use of

A BIGGER THANKSGIVING DINNER WITH ONLY HALF THE WORK.

Thanksgiving Christmas and New Year. There's a combination of good cheer—and hard unnecessary work for the housewife.

On such occasions, bear in mind, a McDougall Kitchen Cabinet would do half your work. And it will do the same every day as long as you live.

And it will save enough in kitchen supplies to pay for itself in one year and pay you \$25 or \$30 a year thereafter as long as you live.

As long as you live, we repeat, because that's the kind of durability you get in a McDougall and in no other cabinet.

Neither will you find McDougall convenience, cleanliness and superior finish in any other cabinet.

There are other cabinets that sell for about the same prices as the McDougall and there are others "made-to-sell" at from \$2 to \$4 less.

But no really economical woman can afford to buy such a cabinet when she can get a genuine McDougall for \$13.50 to \$28.

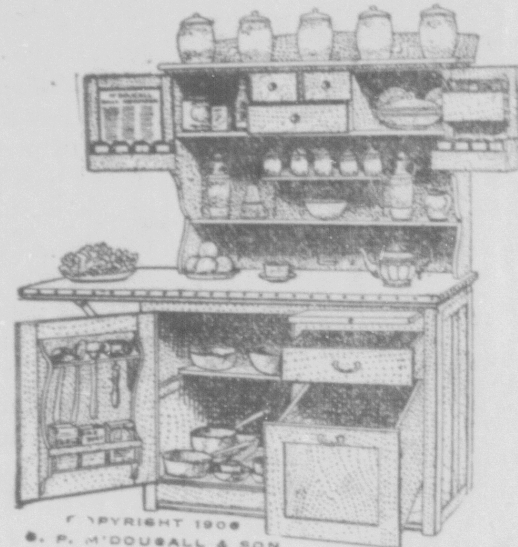

And no discerning woman will have any-

thing but a genuine McDougall if she will but see the McDougall before buying any other.

Our thirty days trial plan will enable you to put a McDougall in your kitchen right now.

First time you're down town, make it a point to see our attractive McDougall display.

Prices from \$13.50 to \$28.00.

Until Thanksgiving we will present with every McDougall Cabinet sold one set of Porcelain Jars (three for cereals and four for spices) absolutely free. Don't miss this offer.

COUNTY NEWS

Carthage.

Mrs. Brosius and Mrs. Fouch, of Knightstown, were guests of Mr. and Mrs. M. F. Lovett Monday.

Miss Eva Johnson was the guest of her sister at Lewisville Sunday.

Mr. and Mrs. E. T. Coffin expect to spend Thanksgiving with relatives at Liberty.

Floyd P. Newsom, who is a student at L. U., and Howard Newsom, who is at Purdue, will come home for Thanksgiving.

Mrs. Cynthia Peacock and Miss Edith Hunt, of Charlottesville, attended Friends' church Sunday to hear the Missionary sermon by Rev. C. O. Whitely.

The bodies of the late Dr. J. B. Sparks and two daughters were removed from the Foust graveyard, near here to Rushville, Monday.

Mr. and Mrs. Clyde C. Henley will go to Chicago, Tuesday to visit indefinitely with Mrs. Henley's parents.

There will be a sunrise meeting at the Friends' church Thanksgiving morning.

The Carthage Telephone company is replacing all their old wires with new ones. The company does all in its power to give good service to the subscribers and the business is constantly increasing.

Mrs. W. S. Johnson will visit her daughter at Lewisville, Thursday.

D. W. Kirkwood, O. W. Righter, A. O. Hill, M. F. Lovett, R. C. Hill and Landy Mahan attended the funeral of a brother Mason at Knightstown, Sunday.

All sorts of rumors were in the air Monday morning in regard to diphtheria, but so far there is not a case of genuine diphtheria in town. All country cases are improving and there need be no alarm. Many cases of sore throat have been treated by local physicians, but they were not of a serious nature.

Arlington.

Ira Allentharp has traded his store and business here for a farm in Richland county, Ill., near Olney; consideration, \$65 per acre. This is one of the largest deals made in Arlington for some time. The new merchant will take possession at once. We bespeak for him success and hope he will make a good citizen and be a fine addition to our business men in this growing village.

Miss Anna Stanley is visiting her sister, Mrs. Dr. Hodge in Grant county.

Great preparations are already being made for Thanksgiving. Of course every one wants a turkey whether they can get it or not—and there is a great alarm among the turkeys.

Thomas Addison, who kept one of the meat shops in town, has been down with typhoid fever, and is now at the home of his father, Frank Addison, north of town. We hope he will soon be up again.

Orvil Sampson, who is studying law with Megee & Kiplinger, in Rushville, is now keeping the meat shop here in place of Thos. Addison. Orvil is a bright boy and will make a good attorney.

Lewis Kirtley, a real estate dealer and merchandise broker, of Sharpsville, Ind., has been in town for several days, closing the deal for Ira Allentharp with Illinois parties.

Wm. Jordan and daughter and Robert Hutchinson left for Flemingsburg, Ky., Friday morning to be gone several days. They were to join Wm. Hysong there on Saturday evening.

Mrs. Hedlin is rapidly growing worse Sunday school at the Christian church is growing rapidly. There were 131 in attendance. They are making arrangements for a splendid Christmas entertainment, which we hope will be well attended. Mrs. Lida Moore visited Mrs. Allentharp Sunday.

Protracted meeting at the M. E. church will continue through the week. There have been several additions. We hope the good work may go on and that they will be able to count the converts by the hundreds.

W. H. Lee has his corn all gathered, and all his fodder in the shed and is now ready to enjoy the long winter days by a good fire in his charming home, where there is always a welcome for all his friends, and if you want to have a real good time just go and see Mr. and Mrs. Lee.

J. S. Mathews and wife attended church at the M. E. church in Rushville, Sunday eve.

Mr. Mann, one of our enterprising merchants has been sick for the past week.

We are glad to note that Mr. and Mrs. Price both able to be out again. Mr. Price is again ready to greet all his friends and grant favors to all that ask him. He is one of the jewels of Arlington.

Mr. Silers, the man who got on a spree and drove his "auto" into the bank window and struck Mrs. Hannah Havens' milk wagon, breaking it and throwing Mrs. Havens out badly bruising her, has been around paying for the damages. He has settled with Mrs. Havens and is trying to settle with the bank. His spree was an expensive one, but he is getting off easy.

The easiest way to prepare a quick breakfast is to use Mrs. Austin's Pancake flour.

CLOTHING TALK

It has always been our ambition to present to Rush County Buyers the best Clothing Merchandise to be found in the Clothing Market, and we feel satisfied that our efforts in that direction

has not been without a certain degree of success. We feel sure that there is not a single man, woman or child in the whole county but what knows that this store now, and always, has carried by far the best and most complete stock of Clothing, Shoes and Furnishings, both for man and boy, to be found in Rushville, or as good as can be had anywhere in the State; and that we have conducted our business on this one principle from the day we started till now—give our patrons honest goods at a fair legitimate profit and represent every article just as it is, and if it doesn't prove to be as represented your money will be refunded. We also give you a positive guarantee that our prices, under any and all conditions will be as low for same quality as they can be bought for elsewhere—doesn't matter to us whether any one else is advertising goods at half price, one-third price, one-fourth price, or any old price, we'll allow no one to out do us. We propose to sell you goods as cheap as any one in the clothing business any day in the year, and we have never yet advertised any thing in any way, shape or form that we have not lived up to to the letter, so now if you are in need of clothing come straight to this store and if we don't prove to you that we are as cheap as any other living man in the clothing business we certainly will not expect you to buy from us. All we ask is for you to look at this stock before you give up your money.

HYOMEI CURES CATARRH

Costs Nothing Unless it gives Relief—Sold Under Guarantee.

No matter how severe or chronic a case of catarrh you may have, consult F. B. Johnson & Co. about the use of Hyomei. They have so much faith in the efficacy of this treatment that they give their personal guarantee with every outfit they sell that it will effect a cure, or the money will be refunded.

In many instances Hyomei has cured catarrh when the patient has suffered from childhood. Quite a few people in Rushville who have been unable for years to get a good night's sleep on account of the disagreeable tickling and drooping at the back of the throat, have obtained quick relief from a few treatments with Hyomei, and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated healing through the pocket inhaler that comes with every outfit, and all catarrhal germs will be killed and the mucous membrane will be healed.

A complete Hyomei outfit costs but \$1, sufficient for at least two weeks treatment, making it one of the most economical methods of curing catarrh. If the outfit does not complete a cure, extra bottles of Hyomei, if needed, can be bought for 50 cents. Remember that there is no risk in buying Hyomei. It costs nothing unless it cures.

Notice to Property Owners.

To whom it may concern: Notice is hereby given by the Common Council of the city of Rushville, Indiana, that on the 26th day of November, 1906, they approved an assessment roll showing the prima facie assessments for the following described public improvement, as authorized by the improvement resolution for the improvement of Fourth Street, on the north side of said street, from Perkins street to Morgan street, and on the south side from a point 32 feet west of Perkins street to Harrison street. Persons interested in or affected by said described public improvement are hereby notified that the Common Council of said city has fixed December the 4th, 1906, as a date upon which remonstrances will be received or heard against the amount assessed against each piece of property described in said roll, and will determine the question as to whether such lots or tracts of land have been benefited in the amounts named on said roll, or in a greater or less sum than that named on said roll. Said assessment roll showing said prima facie assessment, the names of owners and descriptions of property subject to be assessed, is on file and may be seen at the office of the city clerk of said city.

THIS WEEK SPECIAL DISPLAY FOR INDIANA HOOSIER KITCHEN CABINETS

Save time and work for tired housekeepers.

Save footsteps—every utensil, all supplies in one spot.

Do away with all waste—nothing mislaid, nothing spoiled.

No supplies exposed to dirt and dust. Ensure a neat, orderly kitchen at all times.

Do away with all kitchen drudgery.

Hoosier Cabinets are not merely a convenience, but a necessity for systematic housekeeping—cupboards, pantries, cupboards and kitchen sink—contain a special place for everything from a nutmeg to fifty pounds of flour—have a convenience of arrangement and many special Hoosier features, not found in other cabinets at any price.

Come in and see us—five minutes spent in our store will convince you that the Hoosier is the greatest labor-saving device ever devised.

The Hoosier is sold in our Store at Factory Prices

You can buy a good Hoosier Cabinet through us at the price of an ordinary cheap mail-order cabinet.

Keep your money at home. Buy from your home dealer a good article for a low price—made by a home factory.

When you buy a Hoosier Cabinet you are protected by the manufacturer's guarantee backed by a \$20,000.00 gold bond.

We have looked into the Kitchen Cabinet business very carefully and have decided that the Hoosier is the best to be had at any price. It costs very little. It is the only kitchen cabinet we sell.

This week is Hoosier Week. Don't fail to come into our store and see this display this week.

Ralph H. Edgerton received a telegram from Prof. Bink Schnurr this morning, stating that he and his orchestra would be here for the Thanksgiving dance without fail. Some of the young people have been under the impression that Prof. Schnurr would not be here. But he will furnish the music although he had to cancel an engagement in Louisville, Ky.

Charles V. Tevis, son of Dr. V. W. Tevis, of this city, has the responsible position of Telegraph editor on the Cincinnati Enquirer. He handles all the mail correspondence of eight States and the miscellaneous telegraph news of several States. The work is so strenuous that a man can only work five or six hours each day, but it is one of the most lucrative and responsible positions on the paper.

Greensburg Graphic: The manager of the Greensburg Reds has not decided just where the team will train, some rooters are trying to work up a trip to Cuba, while others are holding out for California, but just so they play ball and lick Connersville, we won't care about the training. We have noticed that the teams who do the most elaborate training stunts are usually the ones who do cellar duty during the regular season.

A GOOD AFTER-DINNER CIGAR.

Thos. W. Lytle Says the Chicos Just Fills the Bill.

The time to enjoy a real good cigar is after a good dinner. "There is no better time to test the quality of Wadsworth Bros.' Chicos than to light one right after a hearty meal," says Mr. Thos. W. Lytle, of Lytle's Drug Store. It just fills the bill for a good after-dinner cigar.

It is clear, long Havana filler of superior quality, and the size is exactly right.

Thos. W. Lytle says that he has sold more Chicos since he introduced his brand in Rushville than he ever sold before of any brand in four times as long. This shows how well it pleases the smoker who enjoys a good cigar.

Considering its superior quality the price at which it sells, five cents straight is a surprise.

Step into Thos. W. Lytle's Drug Store today Mr. Smoker, and get a pocket full of Wadsworth Bros.' Chicos.

IF YOU LIKE a decided touch of distinctiveness in your overcoat, then you'll admire the two Garson-Meyer Overcoats illustrated above. They are both form-fitting coats, but one has the long center vent with heavily pressed side seams, while the other has besides its long buttoned centre vent, two "make-believe" side vents that give the coat a very swagger look indeed. The coats vary in length—you may have almost any length you please. The patterns are too many to describe here—there are plenty of fine grays, and mixtures of gray, handsome herringbone effects and overplaids. And plenty of rich blacks, too.
